

Edge of the World

Implications for the Game

Technical

- Proper pacing of pass
- Passing accuracy

Physical

Sprinting

Activity Organization:

Each player has a ball in a confined area.

Players start at one end of the area and pass their ball to the other end line. They must run after their own ball and control it before it 'falls off the edge of the earth.'

Players can only strike the ball once when passing it. The challenge is to get as close to the line without going over.

Why not try it with a partner? The partners run to control each other's ball.

Tactical

 Creates tendency for immediate movement after the ball following a pass

Social/Psychological

- Self-pacing activity
- Allows players to take safe risks
